## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claims 4-24 are allowed.

Prior art of record fail to disclose a moving mechanism for moving the first rotor along the first direction in order to change relative positions of the first rotor and the first stator to adjust a gap between the first rotor and the first stator, wherein the moving mechanism includes a moving member having a cylindrical shape having a throughhole, the rotation axis being inserted in the throughhole, and the moving member pushes the first rotor along the first direction to move the first rotor so as to be spaced apart from the first stator, and including other features as recited claim 4,9-10.

The first rotor has a plate shape having a recess near the rotation axis, the recess being depressed in the axial direction~ at least a part of the transmission is inserted in the recess of the first rotor~ and the transmission and the moving mechanism are disposed so that the first rotor is interposed therebetween as recited in claims 13,15,18.

Regarding claim 20 is rejoined with respect to independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
